

CURRICULUM VITAE

MASHA MEDVEDEVA

PERSONAL INFORMATION

NAME: Masha Medvedeva
PLACE AND DATE OF BIRTH: Moscow, Russia | 21 December 1993
CURRENTLY LIVING IN : The Hague, the Netherlands
PHONE (PRIVATE): (+31) (0)6 31237186
EMAIL: medvmr@gmail.com
WEBSITE: masha-medvedeva.github.io

PROFILE

I am a legal tech engineer and researcher. My work lies within analysing and implementing solutions for automation in legal domain, as well as analysing products that are currently on the market. In the past much of my work lied within automatic detection of linguistic patterns within legal data, with particular focus on predicting court decisions. A big part of my experience is working with judgements of the European Court of Human Rights as well as Dutch case law. My professional interests include but are not limited to improving accessibility to justice, legal analytics, interpretability of NLP models, automation through AI, and related areas. I am looking for engineering, advisory and consulting positions in legal technology in the Netherlands and/or remote.

RELEVANT WORK EXPERIENCE

- | | |
|------------------|---|
| 2022-
PRESENT | <p>Researcher in Legal Technology
Department of Digital Security, Radboud University, Nijmegen</p> <ul style="list-style-type: none">• Evaluating legal tech tools available on the European market and researching their claimed and actual functionality• Developing an educational tool to help legal experts understand technology behind legal tech services• Publishing academic work in AI and Law• Building Typology of Legal Technologies |
| 2017-2022 | <p>PhD candidate in AI and Law
Centre for Language and Cognition Groningen & Department of Legal Science, University of Groningen</p> <ul style="list-style-type: none">• Researched a variety of topics in AI, NLP and Law• Implemented machine learning systems for predicting and analysing court decisions in Dutch, French and English• Developed systems for legal data analysis• Consulted on developing legal tech tools• Developed methodology and fundamental terminology in the field of predicting court decisions• Successfully managed and budgeted 4,5-year project• Supervised and mentored students, research assistants and interns• Published 20+ articles• Presented at 25+ international conferences• Taught ML and NLP at bachelors and masters level |
